Branch offices located in Pittsburgh, PA; Cleveland, OH and Canton, CT

Paying too much for your Wichita® parts? Here is what the competition doesn't want you to know!

We are proud to distribute the full line of WPT® Power Corporation products.

These low inertia brake parts, like all WPT® Power Corporation products, are a direct replacement for Wichita® parts *down to the component level*. Standard features include high-speed airtube construction; ductile iron rings, back-plates and center-plates; and balanced gears and center-plates for optimal operation.
