

Do you have an uncommon condition or special requirement? BrakeTechnique® can provide you with professional application engineering services!

Let BrakeTechnique®, Inc. help to determine the right clutch or brake needed to meet your specific requirements.

Our knowledgeable technicians can expertly provide you with professional application engineering services to meet your specific needs and requirements for practically any application. We take great pride in the quality of our work. In fact, all of our workmanship is *fully warranted*.

In addition to our application engineering capabilities, BrakeTechnique®, Inc. also offers the following services:

- Friction material fabrication
- Complete custom clutch and brake services
- Complete rebuilds and relining services
- A large inventory of spare parts
- Remanufactured units in stock, ready for shipping
- We even offer a *brake exchange* program!

You owe it to yourself and your bottom line to give BrakeTechnique® a call. Let us show you how our application engineering services can determine a clutch or brake to keep you in service longer.

“It’s not scrap until *we* say so...”
