

Don't scrap that worn-out equipment!

BrakeTechnique® , Inc. can provide you with fabricated replacement pads, pucks and discs!

Let BrakeTechnique® , Inc. help to preserve the investment that you've already made!

Our knowledgeable technicians will expertly duplicate your existing pads, pucks or discs. From generating a new CAD drawing, to material layout, to material fabrication, we can guarantee quality because we take great pride in our work. In fact, all of our workmanship is *fully warranted*.

In addition to our expert friction material fabrication capabilities, BrakeTechnique® , Inc. also offers these services:

- Complete custom clutch and brake systems
- Application engineering services
- Complete rebuilds and relining services
- A large inventory of spare parts
- Remanufactured units in stock, ready for shipping
- We even offer a *brake exchange* program!

You owe it to yourself, and to your bottom line, to give BrakeTechnique® , Inc. a call. Let us show you how we can keep your clutches and brakes in service longer.

“It’s not scrap until *we* say so...”
